STRAINERS

Den Holder is manufacturer of several types of strainers, screen and sieves which are designed in accordance with our clients requirements or any international standard. Strainers can be manufactured from pipe, fittings, plate or castings.

Standard designs are: T- and Y-type strainers, bucket-type strainers, conical strainers. Other designs can be engineered by us and checked on strength and open area ratio to achieve

lowest possible pressure loss. All strainers are manufactured with most accuracy to be perfect safeguards with minimum pressure loss.

Design, manufacturing and testing are covered by our ISO 9001 Quality System and all required documentation such as WPS/PQR and NDE-reports can be included.

ORDERING DATA

DESIGN CODES » ASME B31.3 / API / ANSI / BS / DIN / RtoD / PED / TÜV

TYPE » Y-type

SIZE AND CLASS » ½" – 24" / 150 – 2500 #

MATERIALS » A105N / A350LF2 / A182-F5, F11, F22, F91 / C21
» A106Gr.B / A333Gr.6 / A335Gr.P5, P11, P22, P91
» A312-TP304(L), A312-TP316(L)/Ti, A312-TP321(L)
» A182-F51 / 1.4462 / UNS S31803/S32750/S32760
» Monel / Hastelloy C22, C50, C276 / Alloy 20/625/825
» Titanium

BUCKET TYPE STRAINERS

LINE SIZE » 2" thru 36"

CLASS » ANSI 150# thru 2500#

SCHEDULE » 10s thru XXS

CONICAL STRAINERS

LINE SIZE » 1" and above

CLASS » ANSI 150# thru 2500#

» or DIN PN 10 thru PN 250

SCHEDULE » 10s thru XXS

Y-TYPE & T-TYPE STRAINERS

LINE SIZE » 1/2" thru 56"

CLASS » ANSI 150# thru 2500#

SCHEDULE » 10s thru XXS
